2006
Reproductive Medicine program started at UNSW

2013
Women’s Health Medicine program started at UNSW

Previous Undergraduate Degree of our Students:
Acupuncture, Allied Health, Applied Science, Biotechnology, Embryology,
Engineering, Health Admin, Health Science, International Health, Naturopathy,
Nursing, Medical Science, Medicine, Science, Physiology, Public Health

Age at commencement
Age Range: 21-70

Duration of study
Average years taken to complete the master program: 2.5 years

Where our students come from
This map represents the students’ country of origins

UNSW Sydney
This is not a gynaecology course; it is an opportunity for those with a special interest to study in a very flexible environment. The list of course options available appears in this Prospectus and you will see that there are opportunities to round out one’s postgraduate education with innovative elective courses.

This year, we are offering twelve courses and, consistent with the delivery mode, assessment is done online with electronically-marked multiple choice questions, online discussion forums and scheduled assignments.

For each course students should allow 6-10 hours per week over the 10-week term for reading, research, online discussions, assessments and assignments.

All you need is the desire, the time and access to a computer.

Reproductive medicine is at the forefront of emerging medico-scientific technology, offering hope to many needy couples, and career opportunities to those with demonstrable skills and knowledge.

"...On the completion of the Master, you would expect a clearer understanding of the science, ethics and clinical application surrounding Reproductive Medicine. Personally I found this course to be a pertinent platform in my career thus far. I would highly recommend this course to my newly graduate medical colleagues and other junior (and not-so-junior) doctors..."

Master of Reproductive Medicine
Women’s Health Medicine program

Introduced in 2013, we hope that this ever evolving program provides an opportunity for those with a general interest in Women’s Health to expand their knowledge within a very flexible study environment.

It is anticipated that such a program may be particularly useful to family physicians, but that it will also have some appeal to other professionals such as Women’s Health nurses, midwives and medical scientists.

All courses in this program are delivered in a distance-learning format. It is difficult to give an exact estimate of the time commitment required but generally participants should allow 6-10 hours per week over the 10-week term for reading, research, online discussions, assessments and assignments.

There are three terms each year and a range of different courses will be offered in each term.

“I thoroughly enjoyed studying the Master online at UNSW … a wide variety of subjects are offered and I found the subjects relevant to my work as a GP... the course was easy to navigate online... I am happy to say that I have been impressed by this course and UNSW.”

Master in Women’s Health Medicine

“I am a fertility specialist and undertook the Master in Reproductive Medicine during my subspecialty training. The Masters addressed some areas which were complementary to my subspecialty training ... the online learning made it possible to schedule my study around full-time work.”

Master in Reproductive Medicine
Entry into our programs is based on the following criteria:
An undergraduate degree in medicine, nursing, health or medical science and:
• an Honours, Graduate Certificate, Graduate Diploma or higher qualification in medicine, nursing or health or medical science; or
• commencement of a recognised postgraduate medical specialist training program (e.g. general practice, obstetrics & gynaecology); or
• 1 year full-time equivalent of postgraduate professional experience in medicine, nursing, health or medical science.

We have two intakes in a year, which are Term 1 and Term 3.
Applications can be made online at applyonline.unsw.edu.au/login
The following information should be submitted with the application form:
• Your Curriculum Vitae
• Employer-provided statement of service
• Originals or certified copies of your academic record and proof of completion of previous degree

English language requirements
If English is not your first language, or if you did not complete an assessable qualification of at least one year of duration at a university or other post-secondary educational institution within the last two years where the medium of instruction is in English, you’ll need to provide evidence to show that you meet the University’s English Language Requirements. Visit unsw.edu.au/english-requirements-policy for more information.

Closing date for applications:
• End of December for Term 1 commencing mid-February
• End of July for Term 3 commencing mid-September
• Late applications will be considered

Fees are payable on a per term/course basis.

FEE-HELP

FEE-HELP is an Australian Government loan to assist full fee paying students to help pay part or all of the tuition fees. FEE-HELP is available to students who are Australian citizens or Australian permanent residents with a humanitarian visa. For more information on FEE-HELP, visit studyassist.gov.au. For advice about whether you’re eligible for a FEE-HELP loan, please contact the FEE-HELP enquiry line on 1800 020 108.

Key dates for 2022

Term 1 2022 (T1): 14 Feb - 12 May*
Term 1 fee payment deadline: End of week 1
Term 1 census date (discontinuation without failure/financial penalty): 13 Mar
Term break: 13-29 May

Term 2 2022 (T2): 30 May - 25 Aug
Term 2 fee payment deadline: End of week 1
Term 2 census date – (discontinuation without failure/financial penalty): 26 June
Term break: 26 Aug - 11 Sept

Term 3 2022 (T3): 12 Sept – 8 Dec*
Term 3 fee payment deadline: End of week 1
Term 3 census date – (discontinuation without failure/financial penalty): 9 October

*New applications will be accepted for commencement Term 1 and Term 3 only.

“…being online it provides the flexibility to learn around the demands of being a mother to three young children and full-time work commitments ... the structure of the course has enabled me to integrate learning around times that suit me.”

Master in Reproductive Medicine

“... The modules I undertook provided me with a comprehensive understanding of those issues and so much more, my plans include Nurse Practitioner or Midwifery Consultant... also being able to pay per module made the course affordable... the online discussions were very valuable providing a cross section of clinicians engaged in critical discussions...”
